Management arrangement for Lot 1050

Dear Stacey,

Clearing in preparation for construction of the Cold Stores at V & V Walsh has been completed. The Revegetation Management Plan (as supplied) for the site has now commenced with the fire break established. Fencing quotations have been approved and awaiting confirmation dates from contractors for work to commence to fence along the property boundary. Seedling orders will be placed in the coming months to allow for planting in 2023.

The ongoing management of Lot 1050 is outlined in the Revegetation Plan as part of the Clearing approval CPS 9219_9 and the EBPC approval 2021/8902. As per the Revegetation Plan V & V Walsh will manage the site for at least 5 years or until the completion criteria are achieved. Management will include weeds, fencing and firebreaks. Handover of the site is expected to be 13 June 2027.

Please refer to Figure 1:

- Completed clearing area
- the location of the property boundary fence
- firebreak

For your information, during clearing there were no Western Ringtail Possums encountered and several Brushtail Possums were relocated into the mitigation area.

Regards
